

FTTx Cable pulling adapter for SC patch cords

FTTx technicians can now perform standardized indoor installations that are faster and which minimize damages to building structures.

PulR - SC - 4.8 - 9.5 (Slim)

- **PulR** is a pluggable cable pulling adaptor which can be easily field installed and removed at the end of a pre-connectorized SC patch cord
- Facilitates easy and safe pulls of FTTx patch cords through 3/8" diameter holes
- One or many pulling sticks can easily be screwed to the **PulR** adaptor
- A rope pulling eye can also be screwed to the **PulR** adaptor to help pulling into a 9.5 mm diameter conduit
- **PulR** is engineered to grip on the outer sheath of a 4.8 mm diameter FTTx patch cord
- Protects the SC connector from obstacles, debris and damages during the cable pulling operation
- Made in recyclable plastic
- Reusable and affordable
- Patent pending
- Made in Canada
