

## Pre-terminated SC 4.8 mm FTTH Installation Kit

Kit includes both an Helipuller™ SC Rugged and an Helipuller SC Slim, with two pulling sticks, all in a lightweight transport tube with hang caps.

**Helipuller** - FTTH Kit

- **Helipullers™** are cable pulling adapters which can be easily field installed and removed at the end of an SC Pre-Terminated cable
- The SC Rugged facilitates easy and safe pulls through 1/2" diameter holes or conduits, without need for removing the SC Outer Body
- The SC Slim facilitates easy and safe pulls through ~3/8" diameter holes or conduits, by temporarily removing the SC outer body during the pull
- One or many pulling sticks can easily be screwed to the **Helipullers™**
- **Helipullers™** are engineered to grip on the outer sheath of a 4.8 mm diameter FTTx pre-connectorized cable with our patent pending HelicalGrip™ technology
- Protects the SC connector from obstacles, debris and damages during the pulling operation
- Made in recyclable plastic
- Reusable and affordable
- Multiple patents pending
- Made in Canada
